HASS FRO 2023 - Plan on a Page

Researcher Development

1 Develop a core program of researcher development for 2023

2 Connect to central research strategy fo research development

3 Contribute to a pipeline of support across all funding opportunities working with Central Research Office and local units

4 Support new staff and ECRs in their research development

5 Ensure the ethical conduct of HASS Research

Research Infrastructure

1 Develop a vision statement and recommendations for HASS research infrastructure

2 Development of digital research infrastructure through Digital Cultures and Societies

3 Support of ARDC project and future NCRIS funding

4 Grow research hubs and research networks and support new network - Arts and Flourishing

Partnerships and Collaboration

1 Develop business development strategy for research in HASS to expand funding opportunities that allow researchers to pursue mission-based research

2 Connect to central research strategy for growth in research partnerships

3 Transition internally funded research into external funding pathways

4 Grow awareness and support for ARC Industry Fellowships

5 Create robust contracting process within HASS

HDR Renew and Review

1 Create a HDR recruitment strategy in line with current national and international needs and drivers

2 Create HASS resources around internship process and collaboration with faculties to support internship opportunities

3 Promote Career Development Framework to support HDRs building individual development plans

4 Promote 3MT as an important opportunity for HDR students

5 Support non-academic career pathways for HDR students and promotion of opportunities

Communication and Culture

1 Provide DoR training and a community of practice to enhance faculty-wide research support and research culture

2 Develop effective communication channels for DoR, FRO and central research

3 Support profiling of HASS researchers and visibility of HASS Research

4 Adopt a case study approach to communicating and training

Indigenous Research

1 Liaise with Directors of Indigenous Engagement in each of the organisational units to integrate activity across the research portfolio

2 Support the embedding of the Indigenous Research Strategy through sharing across local organisational unit activity

3 Report back on how the Indigenous Research Strategy is being embedded to the Faculty and Central Research Committee through the strategy spreadsheet
