Notes:

1. This is an EXAMPLE only. The exact sequence depends on the choice of major(s) and their prerequisite requirements. Course scheduling and timetabling change each semester. Accommodating your choice of majors/minors and an exchange semester within the timetable is your responsibility and may affect the availability of some combinations.
2. If taking an extended major substitute appropriate courses including your minor courses in lieu of Major 2. The structure of Year 3 largely depends on when your compulsory third year courses are offered in your chosen major.
3. Language students may need to take the equivalent of one compulsory level 2 language acquisition course during their exchange semester.
4. Students are not permitted to undertake exchange in their final semester of study due to the requirement to complete compulsory level 3 courses and the risks associated with find a matching for these courses on exchange, which could result in having to undertake additional courses upon your return. If you are planning to undertake additional travel after your completion of studies and want to undertake exchange in your final semester, you must make a case to the Associate Dean (Academic) demonstrating that you have saved your elective courses for your final semester and that you understand the risks involved including that it could delay your graduation.
