### Additional Rules

Your program has additional rules that you need to read carefully to make sure you meet your program requirements for graduation – please refer to your [program here](#).

### Selecting Plans in SI-Net

A plan is a prescribed combination of courses within a program being either a major (16 units), extended major (24 units), or minor (8 units). Make sure the plans for your program are correctly listed in [mySI-net](#). If you require assistance selecting your plan(s), follow these [instructions](#).

You may need to change this study planner depending on the plan(s) that you have chosen to study.

### How to use this planner

Major/Extended Major and Minor Compulsory Courses should be planned first, followed by Major/Extended Major and Minor Elective Courses. Students may need to adjust the semesters of courses for their majors in the below planner depending on the major combination taken.

General Elective Courses should be planned last, based on the remaining room in the study plan.

Use the right-hand column to fill out the courses you have selected to meet the program and plan requirements. It is your responsibility to make sure you complete enough units in each component and any additional rules to meet your program requirements for graduation.

### Global Experience

If you are planning on completing an overseas exchange, you may have to change this study plan. If you would like an exchange experience in your program, you are encouraged to seek advice early in your program and to be aware of the exchange application deadlines. For more information see the [Global Experiences](#) page.

### Important Notes

The information contained in this document is intended as general advice only.
