CREATE CHANGE

Bachelor of Education

(Primary and secondary)

Share your love of learning and contribute to teaching best practice as a UQ-trained educator.

Our Bachelor of Education (Primary) prepares aspiring teachers for working with today's technology-savvy students, focusing on literacy and numeracy skills development in the Early and Middle Phases of Learning (Prep–6).

A Bachelor of Education (Secondary) at UQ is offered as a dual degree so you can apply your subject knowledge (science, mathematics, English, humanities, etc.) to the latest developments, theories, policies and practices in education.

An alternative pathway for those wishing to undertake a teacher preparation program is the Master of Teaching (Primary) or the Master of Teaching (Secondary), which require a bachelor degree in relevant teaching areas from a tertiary institution as an entry requirement. These programs are ideal for those looking for a career change or who wish to follow their passion for teaching.
