

Transferring from the BA to another UQ degree

Information for students planning to transfer from Bachelor of Arts to

Bachelor of Science/Bachelor of Arts or Bachelor of Science

The sample enrolment plans below are for students who are studying in the Bachelor of Arts in 2019 who hope to transfer into the Bachelor of Science, or add Science as a dual degree with Arts, mid-year, 2019 or hope to transfer into the Bachelor of Science or Bachelor of Science/Bachelor of Arts in 2020. These plans have been approved by both the Faculty of Humanities and Social Sciences and the Faculty of Science. These are provided as a guide only. The suggested courses are not compulsory, and many others are available.

Remember:

- To satisfy the Bachelor of Arts program rules, in their first year of study all full time BA students must complete their first 8 units of courses from Part A or B of the BA List (see <https://my.uq.edu.au/programs-courses/> to check the full Bachelor of Arts Program Requirements).
- Students will need to satisfy subject prerequisites AND obtain grades that will derive the required OP/entry rank for the Bachelor of Science. These are often best achieved by enrolling in courses they enjoy and therefore should consider their choices carefully. Students may wish to contact UQ Admissions to discuss how their entry rank will be calculated on the basis of their academic history.
- Students intending to change programs mid-year in 2019 or 2020 should familiarise themselves with all relevant rules and procedures. More information is available from:
 - Programs and Courses website: <https://my.uq.edu.au/programs-courses/>
 - Admissions: email admissions@uq.edu.au or telephone 07 3365 2203.
 - 'Transferring Programs' sessions run during Orientation - check the *Orientation Guide* for details.
- Students may seek further information on the Bachelor of Science by contacting the Faculty of Science. Call 07 3365 1888 or visit the Faculty office in Level 2, Building 69
- The process to change programs is different for students transferring in Semester Two or in Semester One the following year. Please consult the [myUQ website](#) or contact UQ Admissions for advice

Bachelor of Arts → Bachelor of Science or dual BSc/BA – lacking prerequisites of Maths B plus either Chemistry or Physics.

NB: To satisfy the science prerequisite, students must undertake 2 units (1 course) in chemistry or physics across the year.

However as full time BA students must complete their first 8 units of courses from Part A or B of the BA course list, the only way to fulfil a science prerequisite as a Year 1 BA student is to complete PHYS1171 in Semester 2. CHEM1090 cannot be taken in semester 1 due to this rule
